

SAFETY AND FLEXIBILITY

ELECTRICAL EQUIPMENT MANUFACTURER

**HIGH-TEMPERATURE CABLES
- OIL & GAS INDUSTRY**

AVIENT SOLUTION

Colorant Chromatics™ Conductive Formulations

WHY AVIENT?

- Provided tailored solutions for specific conductivity requirements, protecting cables against damage from electrostatic discharge (ESD), arc failures, and temperature fluctuation
- Supplied ESD and conductive fluoropolymer solutions in PFA, FEP, ETFE and PVDF
- Shared more than 40 years of experience in the processing and formulation of fluoropolymers
- Offered a global manufacturing footprint

LEARN MORE

KEY REQUIREMENTS

- Formulations suitable for a wide range of cable types, including high-voltage and self-regulating heating applications
- Fine-tuned and consistent resistivity
- Consistent performance across a wide range of temperatures
- Optimized dispersion for ease of processing
